

Fire Stopping & Life Safety Services

Gain Compliance and Complete Control at your facility using our Expert Services

COMPANY FOUNDING

Since 2004, the team at Quorum Services has implemented exemplary levels of reliable, efficient and cost effective first class resources who are dedicated to service

MISSION & GOAL

As a comprehensive, multi-service provider our mission is to provide a team of professionals which serves and instills the goals we practice on a daily basis. We deliver this with a dedication to the efforts and desired results to the clients we proudly serve.

SPECIALITY SERVICES

We work diligently every day to provide leading edge specialty team focused services while ensuring that our delivery is timely, effective and first class. This approach is our measure of setting the industry standards and provisioning support service levels that others simply cannot match.

Our Expertise Includes:

- Auditing & Assessment
- Fire Inspection & Plan Review
- Statement of Condition Surveys
- Licensed user of 3M Firestopping Management Systems
- Life Safety Building Maintenance
- UL Tested Solutions
- Fire Management Systems
- Quality Control & Assurance
- Smoke Evacuation Review
- Penetration Survey & Evaluation
- Jurisdictional Inspection Review
- Joint Commission Preparation
- Product Recommendations
- Plan Analysis & Compliance
- Proprietary Online Resources
- Fire Risk Reporting

We provide turn key results that define the fire stopping challenges within your facility and offer a unique book of solutions that is custom crafted to achieve compliance. Our in depth analysis documents the current state of conditions and directs you through the high priority aspects to remain cost effective and succeed with agency mandated reviews and inspections that come unannounced.

Our plan generates a simple and easy to understand report focused to discover and address specific areas and problem points with an ability to fix them accurately and according to code. We then follow up with the means to effectively map, survey and manage the compliances required to satisfy future inspections with a set of tools that simplifies the effort to make the proper determinations.

Management Systems they offer, one can trust that inherent building functions are administered properly, your facility is secured and control is achieved.

Combined with this unique approach and key partnership our solutions will get results with an understanding that facility directors and managers need more than just policies and procedures. They demand balance and the means to address critical needs in a services package that is dramatic, cost effective and reliable.

Let us reassure your challenges never get past the potential of discovery and work with you to determine the systems to obtain complete control and peace of mind.

In partnership with the experts at 3M and as a licensed user of the Facility Firestop

Fire Stopping & Life Safety Services

Take us for a FREE Test Drive

The Fire Stopping and Life Safety Services Division at Quorum Services is currently offering the ability to take us for a test drive **FREE OF CHARGE!**

With the performance of a mock audit of your facility, those who would like to learn more about bolstering your fire protection objectives first hand. After the mock audit, we will offer a follow up estimate that will define our unique mix of services, management tools and information needed specifically at your location to assure compliance. In association with the experts at Quorum Services and our partnership with 3M one will discover first hand how a program of this type can be

utilized and implemented to achieve maximum results and remain cost effective.

• Our free offer may only be provided one time per business or facility and acts only as a demonstration of abilities and procedures. It's purpose is provided as a tool designed to educate and inform facility managers and directors of the unique ability and expertise we have to assist you with you most demanding needs to administer life and fire stopping safety measures.

Auditing & Assessment Process

- We begin with a Facility Survey and Analysis report.
- Conditions are then assessed and the evaluation is performed.
- Penetrations and red flag areas are then catalogued for remediation and treatment
- Each item is provided a unique ID# and reference to the report survey
- 3M approved UL Tested System Designs are assigned and recorded to remediate the fixes.
- A Budget Estimate is then prepared and presented for approval.
- Remediation is then performed with archival records saved into our online system
