Expertise at work for you

CONNECTING YOUR BUSINESS TO THE EXPERT RESOURCES YOU DESIRE

Since our founding in 2004, we have performed a substantial number of code compliant building trade inspections, quality assurance reports and building plans examinations. These efforts have resulted in a reputation and a level of service that is known as the Quorum Services X Factor. Working with us, clients have saved countless hours of valuable time as well as improved upon an immeasurable amount of service efficiency as a result of our partnership.

With our ever expanding presence in the industry and a certification in 2008 by the State of Florida as a Wind Certification provider we are now able to fully respond and service both the public agencies and citizens as well as private business owners and operators. Our expertise combined with best practice services to communities, industries and developers opens the ability to flourish and share a unique skill set that is setting the standard.

EXPERTISE AT WORK

With Quorum Services it is not uncommon to perform several hundred inspections and/or reviews on any given day. Within this volume of activity no inspection is alike as each is independently administered with an expertise that no other company is able to deliver.

We provide exemplary construction related expertise in response to inspection and plan review services. We are a reliable, efficient and cost-effective resource focused upon efforts which drastically reduce the cost of doing business. Our solutions include the following on site and customizable specialties for trade and code compliant plans review and inspection services:

- Building, Mechanical, Electrical and Plumbing .
- Fire Sprinkler, Safety, Smoke and Alarm.
- Threshold & Special.
- ADA Compliance and SREF.
- Wind Mitigation & MSFH.
- Four Point, Roofing & Shutter.
- Quality Assurance & Control.
- Contract Compliance and Condition.

PUBLIC & PRIVATE SUPPORT SERVICES

Our solutions are designed to respond to both public and private clientele where we are able to handle all phases of your project , staffing or departmental needs in a thorough and efficient manner. We work hand in hand with or in conjunction to your requests and are able to grow as well as to adjust resources to fluctuations in your business model. In essence we are able to act as a direct extension of your team or as an integrated private provider of your services.

QUORUM SERVICES PROVISIONS FULL SERVICE END TO END RESULTS.

CONTINUING EDUCATION COURSES

We are a certified instructor of educational classes and coursework offering required CILB continuing education credits to professionals. Subjects include the following specialties and course selections:

- Accessibility in Building Construction .
- Design Requirements of the Fair Housing Act.
- Flood Control Regulations for Contractors
- Electrical Job Site Safety
- Trench & Excavation Safety.
- Use & Occupancy Review.
- Means of Egress Review.

DEPARTMENT STAFFING & CONSULTING

With an expertise in all facets of the inspection, plans review and administrative practices of the industry we are often called upon to fill in or compliment the staffing demands and challenges for a municipality. We also utilize our expertise, ability and talents to cross over as necessary and offer support services in a consultancy role. The transparency that is created with this unique approach relieves the pressures and difficulties to find a qualified and reliable resource.

CUSTOM SOLUTIONS

The provisioning of our services instills a standard that others strive to obtain. We work hard to diligently offer a custom solution that preserves a high level of professional service. With this understanding and experience we are able to share collectively in a goal to provide that X factor that sets us apart from all others.

EBUSINESS INSPECTTRACK SERVICES

Our online e-business solution "INSPECTTRACK" offers an intuitive inspection management tool that allows a customer to virtually check the project status with the push of a button. Results are posted in real time and offers a resource to ensure that your project stays on schedule .
